US\$48,500 (310A, 1955) US\$147,750 (310R, 1978) US\$228,000 (T310R, 1981) The Cessna 310 is an American four-to-six-seat, low-wing, twin-engine monoplane produced by Cessna between 1954 and 1980. It was the first twin-engine aircraft that Cessna put into production after World War II. By GUY R. MAHER In the spring of 1954, Cessna received a Type Certificate for the 310, launching a production run that lasted until 1981 of general aviation's most desired light twin-engine airplane. The most famous was the 1958 310B used in the TV series "Sky King." Through the years, the 310 evolved to become [...] Cessna 300-400 Pull through AD 2000-01-16. Here you can see the difference between a part with (right) and without (left) a pull through. The part on the left is cracked right alongside the weld.
